

TECHNICAL SPECIFICATION

Type	Picofocus Laser
Light Source	Specialised Laser System - Picosecond
Control Panel	10.4" Touch Screen
Language	English Standard. Others optional
Wavelength	1064nm 532nm 585nm 650nm
Energy	600mj (1064nm) 300mj (532nm)
Peak Power	1064nm, 1.33GW, 532nm 0.67GW
Depth	0.5-7mm
Output frequency	1-10HZ
Light guiding system	7 joint arm
Aiming beam	Diode 655nm
Beam profile	Top hat beam
Pulse width	450ps
Zoom spot size	2-10mm adjustable
Dimension	680*790*1200mm
Net weight	95kg
Electrical Voltage	AC110V-230V + 10% 50HZ-60HZ

ELEVATE YOUR INCOME

*Based on a 7-day working week over 52 weeks and an average treatment price of £200

INTRODUCING THE

LUMI | INK OFF

INKOFF technology is a state-of-the-art laser innovation that delivers ultra-short pulses of energy to target skin imperfections with remarkable precision.

By breaking down pigment and stimulating collagen production, INKOFF technology effectively treats a range of concerns including pigmentation, acne scars, and signs of aging.

Experience the power of precision with INKOFF technology for clearer, smoother, and more youthful-looking skin.

INKOFF technology is designed to treat a range of skin concerns, including:

- Tattoo removal
- Carbon Doll Facial
- Pigmentation issues such as sunspots, age spots, and melasma
- Acne scars and other types of scarring
- Fine lines and wrinkles
- Uneven skin texture and tone

By harnessing ultra-short pulses of energy, INKOFF technology effectively targets these concerns with precision, resulting in clearer, smoother, and more youthful-looking skin.

LUMI | INK OFF BENEFITS

WHY LUMI | INK OFF?

Ultra-Short Pulse Technology

INKOFF technology utilizes ultra-short pulses of energy to precisely target skin imperfections. With its rapid and accurate delivery, INKOFF effectively breaks down pigment and stimulates collagen production for remarkable results. Experience the transformative power of ultra-short pulse INKOFF technology for clearer, smoother, and more youthful-looking skin.

Optional Multi-Wavelengths

The INKOFF system offers 4 optional multi-wavelengths, providing flexibility to tailor treatments according to individual skin concerns. With a range of wavelengths available, INKOFF ensures comprehensive and customizable treatment options for optimal results.

Optional Fractional Hand-Piece

The INKOFF system offers an optional fractional hand-piece, providing versatility in treatment options. With this addition, users can target specific areas with fractional technology, achieving precise and customizable results tailored to individual skin concerns.

Enhanced Peak Power

Experience the INKOFF system's higher peak power, delivering increased energy for more effective and efficient treatment outcomes. With its advanced technology, INKOFF provides superior performance and achieves remarkable results, making it the ideal choice for your skincare needs.

LUMI | INK OFF

Treats All Tattoo Colors

The INKOFF system is capable of effectively treating all tattoo colors, including black, blue, red, green, and more. With its advanced technology and customizable settings, INKOFF provides precise and thorough removal of tattoos across the entire color spectrum. Say goodbye to unwanted ink with the comprehensive tattoo removal capabilities of INKOFF.

INKOFF for Carbon Facial Treatment

INKOFF technology offers an effective solution for Carbon Facial treatments. With its customisable settings and precise laser energy delivery, INKOFF can safely and efficiently target the carbon particles on the skin's surface. By vaporising the carbon and stimulating collagen production, INKOFF enhances the results of Carbon Facial treatments, leaving the skin smoother, brighter, and more radiant.

Clinical Design

The INKOFF system boasts a clinical design, combining functionality with aesthetics. Its streamlined appearance not only enhances the professional atmosphere of any clinic but also reflects the advanced technology within. With its ergonomic layout and user-friendly interface, the clinical sleek design of INKOFF ensures an efficient and comfortable treatment experience for both practitioners and patients alike.
